SKILLS

- Python
- Java
- C#
- Bash
- SQL

LANGUAGES

- Swedish, native language.
- English, fluently.

ACHIEVEMENTS

- B Driver's License
- Swedish Classic Circuit
In 2018 I did a Swedish Classic Circuit, previously achieved a Women's Classic Circuit and a Half Classic Circuit.

ABOUT ME

Right now I study my fourth year of an MSc in IT at Linköping University. My master's is in large-scale software engineering. When I am not studying I like to travel with friends and family, work out or read. Three words describing me are team-worker, driven, and structured.

EDUCATION

MSc in IT | Linköping University

Start August 2019 – present Location Linköping, Sweden

Bachelor in network security, education focused on teamwork with Problem-based learning and width of Computer Science courses. My bachelor thesis was within data-driven characterization across domains. Currently on my master's.

Exchange Semester | Eindhoven University of Technology

Start September 2022 – February 2023 Location Eindhoven, Netherlands

Erasmus exchange semester with courses mostly in optimization and algorithms.

RELEVANT WORK EXPERIENCE

Software developer | Saab

Start June 2022 – August 2022 Location Linköping

Created a new design for an application used in their system modeling. This was a part of a modernization step from Visual Basic to C#.

Researcher Assistance | Linköping University

Start June 2022 – August 2022 Location Linköping, Sweden

Continued to analyze the data collected during my bachelor's thesis. Created statistical analysis and presented the data using Python.

Student Supervisor | Linköping University

Start September 2021 – June 2022 Location Linköping, Sweden

Tutored groups of size 6-8 students twice a week, and used Problem-based learning on problems connected to the student's current courses. Improved team leading skills and the ability to mentor students.

VOLUNTEER WORK AT THE UNIVERSITY

Donna & Student Representative | Linköping University

Start July 2020 – June 2022 Location Linköping, Sweden

During my time at the university, I have been part of the board of Donna 20/21. This is a group for the women and non-binaries, in the faculty of Computer Science and Engineering, whose goal is to create a feeling of affinity among the women and non-binaries in the faculty. Later I was the student representative for the IT program 21/22 and part of the board for improving the IT program curriculum.
